## ISTITUTO COMPRENSIVO 'G. VERGA' HOSTS ERASMUS+ MOBILITY

The second mobility of the 'Computers in our life' ERASMUS+ project took place in Comiso, a historical town located in the south of the beautiful Sicily Island, from 27th February to 3rd March. We were all warmly received by the Italian team, with a dancing and singing opening ceremony at the Istituto Comprensivo 'G. Verga'.

A lecture on the use of digital money and the importance of computers in the banking system was attended and several cultural visits were carried out: we also visited the amazing baroque town of Ragusa Ibla, the Neapolis archeological site, the legendary Siracusa, as well as the main monuments of Ortigia Island and Donnafugata castle, all with interesting explanations from two great local tour guides. It was an unforgettable week for all of us, students and teachers, full of knowledge, friendship and good memories that will last.

## ANALYSING THE RELATIONSHIP BETWEEN COMPUTERS & ECONOMY AND TAKING PART IN FIELD TRIPS

**GRAZIE ITALIAN TEAM!**
